About the El Salvador Citizenship Programme

El Salvador, a pioneering nation in Central America, has undergone remarkable reforms and innovations in recent years. Notably, it became the first country worldwide to adopt Bitcoin as legal tender, reflecting its forward-thinking economic vision. Recognised as the safest country in the Western Hemisphere, El Salvador attracts millions of tourists annually while offering unique investment opportunities and enhanced global mobility.

The El Salvador Citizenship by Investment Programme grants citizenship in exchange for **a \$1,000,000 contribution to the country's economy**. All funds directly support national development and modernisation initiatives. To preserve exclusivity and maintain quality, the government limits the programme to **no more than 1,000 applications annually**.

El Salvador, A Brief Overview

Geography and Climate

El Salvador is the smallest country in Central America, nestled between the Pacific Ocean and the borders of Guatemala and Honduras. Despite its compact size, it boasts a stunning volcanic landscape dotted with picturesque lakes and pristine Pacific beaches. The tropical climate features a wet season from May to October and a dry season from November to April, offering year-round appeal.

Economy

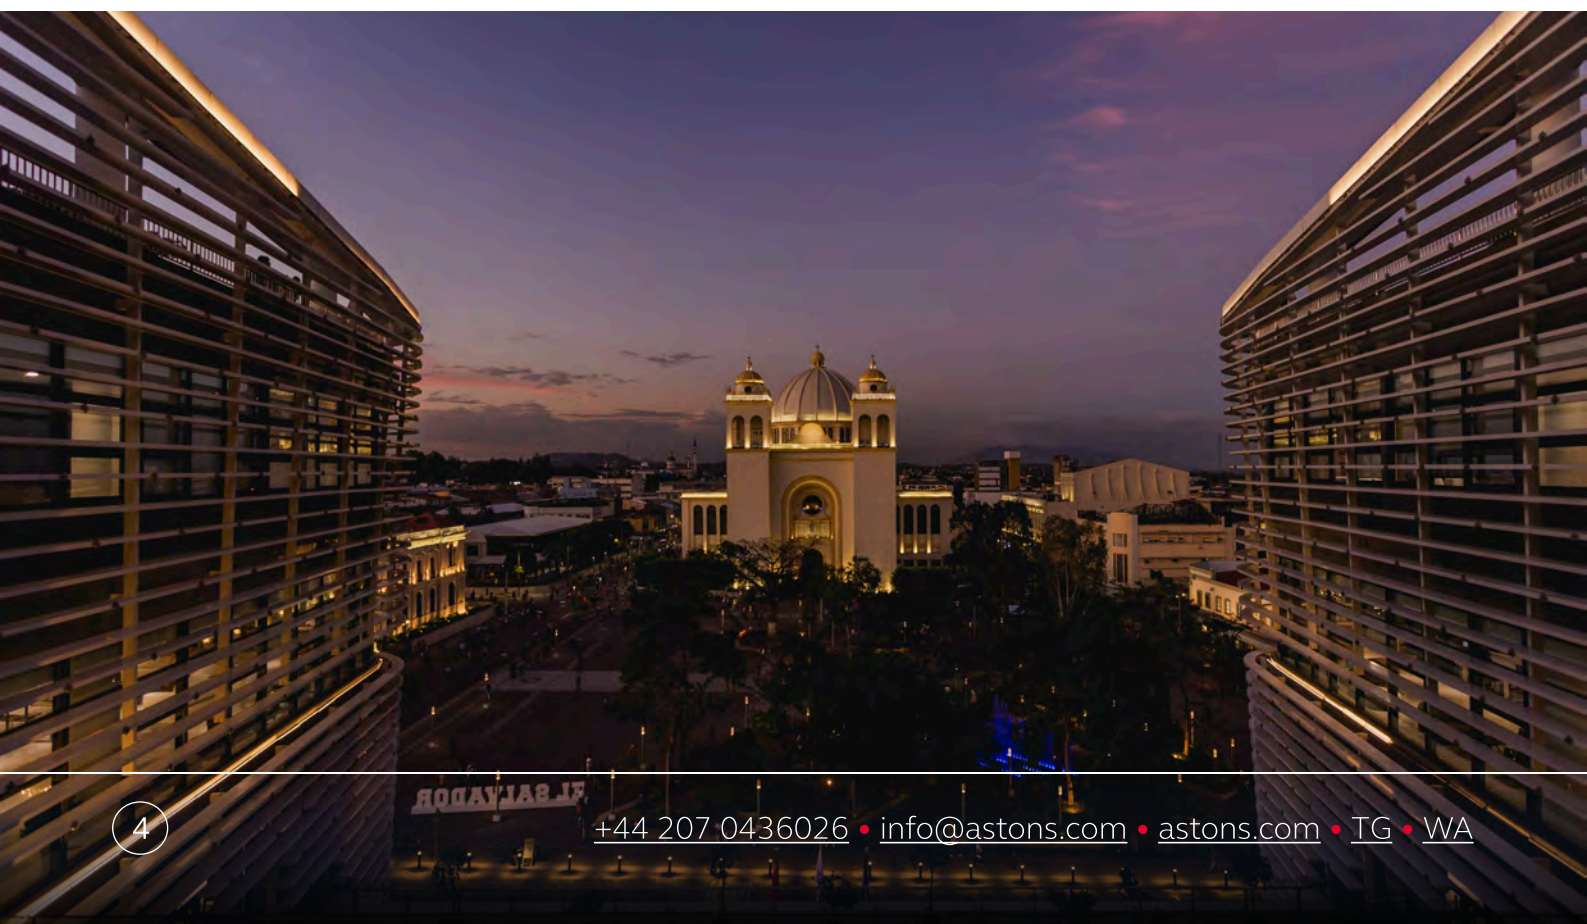

The economy thrives on robust tourism, agriculture, and a growing technology sector. The government's proactive infrastructure improvements and business-friendly policies are fostering a steady growth trajectory, making El Salvador an increasingly attractive investment destination.

Population and Culture

With a population of approximately 6.3 million, primarily Spanish-speaking, El Salvador's culture is a vibrant fusion of indigenous traditions and Spanish heritage. This rich cultural tapestry is reflected in its music, cuisine, and national celebrations.

Safety

2024 marked a historic milestone as the safest year in El Salvador's history, with the murder rate dropping to a record low of 1.9 per 100,000 people, one of the lowest rates in Latin America. These achievements have solidified El Salvador's reputation as the safest country in the Western Hemisphere.
